PROFIL PROFESSIONNEL

DevOps Engineer spécialisé en Cloud & Infrastructure avec plus de 6 années d'expérience dans la conception, l'automatisation et la sécurisation d'infrastructures cloud haute disponibilité sur AWS et GCP. Expertise avancée en CI/CD, Infrastructure as Code (Terraform), Kubernetes, Docker, Jenkins et GitLab CI/CD.

Expérience confirmée dans l'optimisation des performances applicatives, la supervision des systèmes de production, l'automatisation des déploiements et la mise en place de stratégies de disaster recovery et high availability.

Passionné par les environnements cloud-native, les pipelines CI/CD et les architectures distribuées modernes.

COMPÉTENCES TECHNIQUES

Cloud Platforms

- Amazon Web Services (AWS)
- Google Cloud Platform (GCP)

DevOps & Automation

- Terraform
- Ansible
- Infrastructure as Code (IaC)
- CI/CD Pipelines

- GitLab CI/CD
- Jenkins

Containers & Orchestration

- Docker
- Kubernetes
- Helm

Monitoring & Logging

- Prometheus
- Grafana
- ELK Stack
- CloudWatch

Scripting & Programming

- Python
- Bash
- YAML

Systems & Networking

- Linux Administration
- Ubuntu / CentOS
- Nginx
- Load Balancing
- Disaster Recovery
- High Availability

Version Control

- Git
- GitHub
- GitLab

EXPÉRIENCE PROFESSIONNELLE

Senior DevOps Engineer — Algérie Télécom

Alger, Algérie

Janvier 2023 – Présent

Missions principales

- Designed and maintained AWS/GCP infrastructure using Terraform
- Implemented and monitored CI/CD pipelines with GitLab CI and Jenkins
- Automated cloud deployments and infrastructure provisioning
- Managed Kubernetes production clusters and Dockerized applications
- Ensured high availability and disaster recovery strategies
- Collaborated with development teams to optimize application performance
- Configured monitoring and alerting systems using Prometheus and Grafana
- Improved deployment speed and infrastructure scalability
- Managed Linux cloud servers and production environments

Réalisations

- Reduced deployment time by 70% through CI/CD automation
 - Increased production system availability to 99.98%
 - Automated infrastructure provisioning for multi-cloud environments
 - Implemented disaster recovery architecture across AWS regions
-

DevOps & Cloud Engineer — CERIST

Alger, Algérie

Juin 2020 – Décembre 2022

Missions

- Maintained Kubernetes clusters for cloud-native applications
 - Developed Infrastructure as Code using Terraform
 - Managed Docker containerization workflows
 - Implemented Jenkins CI/CD pipelines
 - Monitored cloud infrastructure and application logs
 - Collaborated with software engineering teams
-

Cloud Infrastructure Intern — Djezzy

 Alger, Algérie
 17 Février 2019 – Mai 2020

Missions

- Assisted in AWS infrastructure deployment
 - Configured Linux servers and Nginx
 - Automated deployment scripts using Bash
 - Supported monitoring and backup operations
-

FORMATION

Master en Informatique — Spécialité Cloud Computing & DevOps

École Nationale Supérieure d'Informatique (ESI Alger)
 17 2017 – 2019

Licence en Informatique

Université Houari Boumédiène (USTHB)
 17 2014 – 2017

CERTIFICATIONS

- AWS Certified DevOps Engineer – Professional
 - AWS Certified Solutions Architect Associate
 - Google Professional Cloud DevOps Engineer
 - Certified Kubernetes Administrator (CKA)
 - HashiCorp Certified Terraform Associate
-

PROJETS DEVOPS

Multi-Cloud CI/CD Platform

- Built a scalable CI/CD platform using Jenkins, GitLab CI, Docker and Kubernetes
- Automated deployments on AWS and GCP
- Implemented monitoring with Prometheus and Grafana

Kubernetes Production Cluster

- Designed secure Kubernetes architecture with auto-scaling
 - Configured Helm deployments and ingress controllers
 - Implemented backup and disaster recovery solutions
-
